

Unraveling Multiple MHC Gene Associations with Systemic Lupus Erythematosus: Model Choice Indicates a Role for HLA Alleles and Non-HLA Genes in Europeans

David L. Morris, Kimberly E. Taylor, Michelle M.A. Fernando, Joanne Nititham, Marta E. Alarcón-Riquelme, Lisa F. Barcellos, Timothy W. Behrens, Chris Cotsapas, Patrick M. Gaffney, Robert R. Graham, Bernardo A. Pons-Estel, Peter K. Gregersen, John B. Harley, Stephen L. Hauser, Geoffrey Hom, International MHC and Autoimmunity Genetics Network, Carl D. Langefeld, Janelle A. Noble, John D. Rioux, Michael F. Seldin, Systemic Lupus Erythematosus Genetics Consortium, Lindsey A. Criswell,* and Timothy J. Vyse*

(The American Journal of Human Genetics 91, 778–793; November 2, 2012)

The published version of this article unfortunately omitted some funding information. The following text should have appeared in the Acknowledgments: “Research support for collecting data and developing an application to support this project was provided by NIH grants 3P50CA093459, 5P50CA097007, 5R01ES011740, and 5R01CA133996.” The authors regret the oversight.

Points to Consider: Ethical, Legal, and Psychosocial Implications of Genetic Testing in Children and Adolescents

Jeffrey R. Botkin,* John W. Belmont, Jonathan S. Berg, Benjamin E. Berkman, Yvonne Bombard, Ingrid A. Holm, Howard P. Levy, Kelly E. Ormond, Howard M. Saal, Nancy B. Spinner, Benjamin S. Wilfond, and Joseph D. McInerney

(The American Journal of Human Genetics 97, 6–21; July 2, 2015)

On page 17, the statement “ASHG recommends that no educational program for health-care providers include well-designed evaluation plans that assess the efficacy of content, instructional approaches, and implementation strategies” should read “ASHG recommends that educational programs for health-care providers include well-designed evaluation plans that assess the efficacy of content, instructional approaches, and implementation strategies.” This sentence has been corrected online, and the authors regret the error.
